

INSTRUCTIONS FOR AUTHORS

FIGURES:

Figures can be line drawings, photographs or computer-generated EXCEL or WORD files. No figures will be accepted larger than 15.5 X 23 cm. Width of lines and sizes of letters in figures must be large enough to allow reduction to half page size. If a scale is required, it must be presented as a bar within the figure and its length given in the legend. It is the editor's prerogative to reduce or enlarge figures as necessary and statements such as "natural size" or "4X" in the legend are unacceptable.

Photographs must be supplied as black and white prints or as .TIF files scanned at 600 dpi. Jpeg is not acceptable and figures of any kind set in WORD are unacceptable. Line drawings must be supplied as original copies or as .TIF files scanned at 1200 dpi. Other figures must be in hardcopy.

While there is no objection to full page size figures, it is journal policy to have the legend on the same page whenever possible and figures should not be so large as to exclude the legend. Figure legends should be placed together on a separate page at the end of the manuscript. Figures must never be embedded in the text.

TABLES

Because tables may need to be re-sized, it is essential that table legends are not set within the table but are supplied separately with the figure legends. Legends need to be the same font and size as the rest of the manuscript.

While the text of the legend is expected to be in 12 point type, it may be necessary to use a smaller font size for large tables. It is journal policy to accept tables that run over more than one page only in exceptional circumstances.

Do not use vertical lines in tables unless absolutely necessary to demark data columns. Keep horizontal lines to a minimum and never put a border around tables.

WORD or EXCEL tables are acceptable, but WORD is preferred.

Tables and/or figures must be separate from the text file. Never embed figures or tables in the text.

10. Details of punctuation, scientific nomenclature, etc. are to be found in the complete instructions available from the website or from the Secretary.

11. It is helpful if authors suggest a running head of less than 40 characters.

NOTE: This journal is now published on the web. Papers will be placed on the web when they have been through review and accepted by the Editorial Committee. At the end of each year they will be "bound" into a numbered volume for archiving.

Issued 30 May 2011
CONTENTS

Papers from a symposium on Geodiversity, Geological Heritage and Geotourism

- 1 Robinson, A.M. and Percival, I.G.
Geotourism, geodiversity and geoheritage in Australia – current challenges and future opportunities.
- 5 Keith, D.
Relationships between geodiversity and vegetation in south-eastern Australia.
- 27 Comfort, M. and Eberhard, R.
The Tasmanian Geodiversity database: a tool for promoting the conservation and sustainable management of geodiversity.
- 37 Sutherland, F.L.
Diversity within diversity: underpinning habitats in New South Wales volcanic areas.
- 55 Bruce, M.C.
Geodiversity of the Southern Barrington Tops Lava Field, New South Wales: a study in petrology and geochemistry.
- 71 Meakin, S.
Geodiversity of the Lightning Ridge area and implications for geotourism.
- 83 Young, G.C.
Wee Jasper-Lake Burrinjuck fossil fish sites: scientific background to national heritage nomination.
- 109 Öch, D.J. and Graham, I.T.
Preservation of the Rocky Beach blueschist-eclogite outcrop, Port Macquarie, NSW as a heritage reserve.
- 115 Broox, M. and Semeniuk, V.
Assessing geoheritage values: a case study using the Leschenault Peninsula and its leeward estuarine lagoon, south-western Australia.
- 131 Washington, H.G. and Wry, R.A.L.
The geoheritage and geomorphology of the sandstone pagodas of the north-western Blue Mountains region (NSW).

General Papers

- 145 Stewardson, C.L., Prvan, T., Meyer, M.A., Swanson, S. and Ritchie, R.J.
Suture index as an indicator of chronological age in the male South African fur seal, *Arctocephalus pusillus* (Pinnipedia: Otariidae).
- 157 Stewardson, C.L., Prvan, T., Meyer, M.A., Swanson, S. and Ritchie, R.J.
Suture index and growth in the male South African fur seal, *Arctocephalus pusillus* (Pinnipedia: Otariidae).
- 169 Scanés, P., Dela-Cruz, J., Coade, G., Haines, B., McSorley, A., van den Broek, J., Evans, L., Kobayashi, T. and O'Donnell, M.
Aquatic inventory of Nadgee Lake, Lake Nadgee River and Merrica River estuaries.
- 187 Semeniuk, V.
Microkarst, palaeosols and calcrete along subaerial disconformities in the Ordovician Daylesford limestone, Bowan Park, central western New South Wales.
- 221 Percival, I.G. and Quinn, C.
Reassessment of Lower Palaeozoic geology west of the Catombal Range, Wellington region, central New South Wales.
- 237 Instructions for authors.
